Hearing and understanding are basic human needs. Hearing problems and the resulting social consequences represent a challenge to society. We believe in a world where people with restricted hearing can communicate again thanks to advanced technology.

BETTER HEARING FOR ME AND YOU

NEVARA
HEARING AIDS

bernafon [®]
Your hearing • Our passion

Nevara offers state-of-the-art Swiss hearing aid technology that is within reach. It is a hearing aid family that suits many people, yet presents solutions for individual needs and preferences. Like a tailor who creates just the right fit, your hearing care professional will provide just what you need for better hearing.

Custom-Made Solutions for Me and You

We all have an important role to play. If your hearing is holding you back in any way, consider Nevara.

The Nevara hearing aid family consists of multiple behind-the-ear and in-the-ear models that cover almost every hearing loss. All have been developed to meet your expectations of comfortable and discreet hearing aids.

For your convenience, we also offer a remote control to easily switch to your preferred volume or program.

Joyful Conversations for Me and You

Nevara is a hearing aid that fulfills a basic need: to hear and understand sounds, particularly speech, more clearly. And with Nevara, there is no compromise on this.

Bernafon's unique ChannelFree™ signal processing and proven Audio Efficiency™ technology helps you capture the sounds you want to hear, so that you can feel your best every day.

Nevara's effective features also remove unwanted whistling and disturbing noise to give you a more comfortable hearing experience.
